Encompass 360 – the Right Nutrients to Fuel Your Essential Biological Processes

We live in a day and age where our foods have become nutritionally incomplete and even detrimental to our health. Food products lack up to 75% of the nutritional value that our parents and grandparents received from them. Unfortunately, as we see a decline in the essential nutrients necessary to support proper health, we also continue to see an exponential increase in the production of new chemicals. These chemicals come in the form of household and industrial solvents, cleaners, volatile organic compounds, dioxins, phthalates and more.⁽²⁾ As these harmful chemicals increase we can also experience more health issues associated with deficiencies in essential vitamins, minerals, and phytonutrients.

Protect yourself with enhanced nutritional support by making **Encompass 360's** mega-multivitamin, mineral, antioxidant formula a part of your daily health program.*

Designed to Provide Your Body with Maximum Support for Superior Performance and Health!

This Natural Blend of Ingredients is Formulated to Improve Your Quality of Life!*

Why settle for a minimum multivitamin when you can have the full-spectrum of nutrients? Encompass 360 properly blends natural ingredients to support a multitude of health-related biomechanisms that affect our lives and quality of life. **Encompass 360** provides nutritional support for proper physical, mental, and emotional health.*

Our powerful formula includes **Milk Thistle**, **Bacopa Monnieri**, **Green Coffee**, as well as **Turmeric** to ensure support for liver, brain, and neurological health, as well as support for energy levels and stamina. This synergistic blend not only helps with improving performance during both exercise and recovery, but it also provides broad-spectrum protection and nutritional support for the body by including **Maqui**, **Rhodiola Rosea**, and **Green Tea**.

Now You Can Embrace Daily Health Rejuvenation with Encompass 360

The body needs the proper nutritional components to function at its full genetic and biological potential, which is why you need natural, high-quality nutritional supplementation. If your body is nutritionally depleted you may experience inflammation, degenerative, and metabolic issues. Vitamins and Ionic Trace Minerals are essential for proper cellular enzymatic functions, biochemical processes, protein and enzyme synthesis, ATP production, metabolic vitality, vital organ function and health, a robust immune system, and the regulation of cell and tissue growth.
