Encompass 360™

The Ultimate, Maximized-Strength Multi-Vitamin, Phytonutrient and Mineral Dietary Supplement

Encompass 360 – The Right Nutrients To Fuel Your Essential Biological Processes

We live in a day and age where our foods have become nutritionally incomplete and detrimental to our health. Food products lack up to 75% of the nutritional value that our parents and grandparents received. Unfortunately, as we experience a decline in the essential nutrients necessary to support proper health, we continue to see an exponential increase in the production of new chemicals. These come in the forms of household and industrial solvents, cleaners, volatile organic compounds, dioxins, phthalates and more.⁽²⁾ With the increase of these harmful chemicals we also witness an increase in health issues associated with deficiencies in essential vitamins, minerals and phytonutrients.

Protect yourself with enhanced nutritional support: make **Encompass 360**'s mega-multivitamin/mineral/antioxidant formula a part of your daily health program.*

Now You Can Embrace Daily Health Rejuvenation with Encompass 360

It is essential in today's world to embrace natural, high quality nutritional supplementation. The body needs the proper nutritional components to function at its full genetic and biological potential. A nutritionally depleted body may lead to inflammation, degenerative and metabolic disease. In order to fuel essential biological processes, the right nutrients must be present. Vitamins and ionic trace minerals are essential for proper cellular enzymatic functions, biochemical processes, protein and enzyme synthesis, ATP production, metabolic vitality, vital organ function and health, a robust immune system, and regulation of cell and tissue growth.
