Give Your Brain a Workout

The human brain is the largest internal organ in the body and one of the most susceptible to deterioration through the aging process. For this reason, Sisel developed **Brain Vitality**™, a rich combination of powerful ingredients that result in a super-charged supplement specifically designed to take your brain game to the next level.

Many brain supplements come in a form that can't be easily absorbed through the blood brain barrier and may get expelled as waste. This is why we use curcuminoids from curcuma longa, an improved turmeric root extract that may be utilized by the body with as much as eight times more efficiency. Because of this incredibly high bioavailability, your body is able to absorb more of this complex of brain nutrients, greatly boosting the benefits to your brain.*
