You won't believe what happened last night!

What happened?

Too terrible to text, let's meet at the cooler when you get in to the office.

Why is Everybody Talking About CBD?

In the 90s, scientists discovered the Endocannabinoid System (ECS), which includes cell receptor sites—CB1 and CB2—found throughout the body in the gastrointestinal, reproductive, immune, central, and peripheral nervous systems. You could say that our bodies were *designed* to interact with cannabinoids.

Cannabinoids are neurotransmitters produced in the body that bind to these receptor sites. Cannabidiol or CBD may influence these receptors positively to promote an array of potential results, including helping the body achieve homeostasis. CB1 receptors may increase the amount of anandamide, or the "bliss molecule," which plays a part in the neural generation of motivation and pleasure.

Hundreds of studies on this potent plant extract have validated its nutraceutical use over centuries. More and more people are being educated on the benefits of maintaining healthy cannabinoid levels and what that can mean for an overall healthy lifestyle.

SiselSafe® CBD Products May Calm the Mind, Helping to Optimize the Body.*

When you are stressed, your body tries to divert resources from other critical systems in order to cope. Run too long in this mode and your health and performance can suffer. **SiselSafe CBD products** help calm the mind from daily stressors, helping your body to function more optimally.

SiselSafe CBD 1500 MG Full Spectrum Hemp Extract Sweet Orange is a powerful formulation that delivers 50 mg per serving of the full spectrum of cannabinoids, terpenes, vitamins, fatty acids, minerals, and compounds creating a synergistic entourage effect for maximum results.

SiselSafe CBD 750 MG Broad Spectrum Hemp Extract Mango provides all of the same benefits as its larger cousin in a smaller amount with absolutely no THC.

SiselSafe CBD Muscle & Joint 650 MG Full Spectrum Warming Lotion soothes sore joints and muscles and provides fast-acting, deep-penetrating heat to help with post-workout recovery or from other strenuous activity.

Assists with Better Workouts and Recovery
With a body free from mental and physical stress, you can focus your energy on amplifying your exercise routine. **SiselSafe CBD products** may help you recover faster from those workouts and other physical activities.
Supports Your Immune System
SiselSafe CBD ingestible products encourage a healthy immune response.

Neuroprotective Support
SiselSafe CBD ingestible products may help reduce oxidative stress on the brain and nervous system and supports the growth and development of new neurons.

Provides Digestive Support
SiselSafe CBD ingestible products may help support healthy digestive functions.
