

Sisel® Calcium K2

Bone Support Dietary Supplement

The lack of adequate amounts of calcium supplementation intake in today's lifestyle results in one of the highest rates of osteoporosis in women particularly. As many as half of all women and a quarter of men over 50 may break or fracture a bone. Researchers have published in the American Medical Association Journal, in July 2004, that millions of Americans may have bone problems and don't know it.

Dietary calcium, on the other hand, seems to be disappearing from the American diet due to mineral depletion of soils and food. A calcium supplement formulated for easy assimilation, is important for healthy bone support. Sisel's answer for easy-to-assimilate calcium, magnesium and potassium (two of the other major minerals needed), is **Sisel CalciumK2**; a cutting-edge product that contains a mix of vitamins and bioavailable minerals and blend of three different calciums. This unique combination of important nutrients makes **Sisel CalciumK2** different from most other supplements.

Vitamin K2 supports regulation of calcium in the bones and in the arteries, offering support to the skeletal and circulatory systems. Without adequate amounts of vitamin K2, calcium may not build bones but may enhance calcification of the arteries and other soft tissue.

To help calcium go into the bones, Vitamin K2 and Vitamin D3 initiate carboxylation, which gives bone proteins a potential support to hold on to calcium and use more efficiently.

Calcium K2 is
the result of
extensive
innovative
research

Sisel[®] Calcium K2

Bone Support Dietary Supplement

120 TABLETS

FEATURES, BENEFITS & SUPPORT

Supports:

- Bone & tooth health.
- Nervous system functions.
- Bone density and strength blend of supernutrients.
- Issues of calcium depletion.
- Calcification of arteries.
- Easy-to-digest calcium and minerals.

DIRECTIONS:

Take four 4 tablets daily.

CAUTION:

If you are under the age of 18, pregnant, nursing, have a pre-existing medical condition or taking prescription blood thinning medication, consult with your health care provider before taking this product. Discontinue use and consult your health care provider if any adverse reaction occurs. Do not use if tamper-evident seal is broken. Keep out of the reach of children.

ALLERGENS:

Contains ingredients made from milk products.

Supplement Facts

Serving Size: 4 tablets

Serving Per Container: 30

Amount Per Serving	% Daily Value	
Calories	10	
Total Carbohydrate	2 g	<1%†
Vitamin D3 (as Cholecalciferol)	4 mcg	20%
Vitamin K2 (as Menaquinone)	80 mcg	67%
