

SiseRIPT™

Enhanced Muscle Protein Synthesis Support

SiseRIPT offers a state-of-the-art way for you to grow, repair and maintain muscle mass. Created with long-term muscle health in mind, **SiseRIPT** is designed to support optimal muscle protein synthesis. With more than \$20 million in research and 24 human trials, this unique, patented formula is clinically proven to provide superior muscular growth, regeneration, and conditioning.

The Mystery of Muscle Protein Synthesis

Our muscles rebuild and regrow through a process called Muscle Protein Synthesis. Amino acids are the building blocks for this process, but not all amino acids are equal. Your body easily produces most amino acids as it needs them; but some—called Essential Amino Acids (EAA)—cannot be produced and must be included in our diet in order for our bodies to use them to build protein. Scientists have determined that the efficiency of Muscle Protein Synthesis is dependent on the ratio of EAA involved in the synthesis. If the ratio is too high, oxidation can occur. Too low and the body cannibalizes the EAA from other muscles or organs. Many products have tried, but none have come close to this super-efficient ratio. Until now.

The Perfect Ratio

Based on these multi-million dollar studies, **SiseRIPT** is able to provide the most efficient ratio of Essential Amino Acids needed for Muscle Protein Synthesis. One 3.6g serving offers more support for muscle growth than larger doses of many other muscle building products. In fact, it's so effective that one small dose without exercise offers better results over other formulations that require a large dose plus exercise. You read that right.

Our unique processes maximize **SiseRIPT**'s nutritional content, providing enhanced muscle growth support throughout your daily routine, regardless of the amount of exercise you perform.

The Branched-Chain Amino Acids—Finding the perfect ratio

The Branched-Chain Amino Acids (BCAAs) are one of the most important factors in muscle development. They increase the rate of protein synthesis while reducing the rate of protein degradation when you're in a resting state. Essentially, they improve muscle growth when working out and limit how quickly your muscles break down when you're not.

These 3 amino acids, Leucine, Isoleucine, and Valine, are crucial for muscle maintenance, growth, and repair, and help increase natural energy and endurance. In the proper ratio, they provide your body the means to build mass efficiently without compromising muscle integrity. But while these BCAAs occur and exist naturally, they're rarely consumed in an efficient ratio, let alone an optimized one.

To truly unlock the power of these amino acids, renowned scientist, Dr. Robert Wolfe, spent millions of dollars and decades of his life researching The Perfect Ratio. After 24 successful human trials, he and his team finally cracked the synthesis code. His groundbreaking discovery led to the creation of **SiseRIPT**: our patented, clinically proven formula for maximum muscle health.

SiseRIPT™

Enhanced Muscle Protein Synthesis Support

30 SACHETS • 150g (5g / Sachet)

FEATURES AND BENEFITS

- Up to 3 times greater anabolic response.
- Up to 3 times greater net gain of muscle protein.
- Improved muscle strength.
- Improved overall muscle quality.
- Fast acting ingredients.
- Clinically proven.
- 24 Successful human trials.
- Developed in the National Institute of Health.

DIRECTIONS

Mix 1 sachet (5 grams) in 8 - 16oz of water 1 - 2 x a day. For better results drink one sachet during post workout.

CAUTION

If you are pregnant, nursing, under 18 years old, taking prescription medication, or have a pre-existing medical condition, consult your healthcare provider before taking this product. Keep out of reach of children. Do not use if sachet is torn or not sealed.

Supplement Facts

Serving Size: 1 Sachet 5g

Serving Per Container: 30

Amount Per Serving % Daily Value

Calories	0	
Total Carbohydrate	1 g	<1%*
Sodium (as Sodium Citrate)	15 mg	<1%
Proprietary Amino Acid Blend:	3.79 g	†
L-Leucine, L-Lysine HCl, L-Valine, L-Isoleucine, L-Arginine, L-Threonine, L-Phenylalanine, L-Methionine, L-Histidine, L-Tryptophan		

* Percent Daily Values are based on a 2,000 calorie diet
† Daily Value not established

OTHER INGREDIENTS:

Natural & Artificial Flavors, Citric Acid, Malic Acid, Maltodextrin, Stevia (leaf) Extract, Sodium Citrate.

PHENYLKETONURICS:

Contains Phenylalanine

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Manufactured for:
Sisel International, LLC
1328 West Spring Creek Place
P.O. Box 369, Springville, UT 84663

Sisel International AG
Grundacher 5
6060 Sarnen, Switzerland
