

Sisel Kaffé™ — Premium Instant Coffee

Superior Tasting Ultra-Rich Instant Coffee with Health Benefits

Sisel Kaffé™ Instant Premium Coffee is a truly unique coffee offering. It features the unrivaled taste of the Panama Boquete Gesha coffee bean, low-temperature, IR-cooked to perfection, resulting in a coffee that is rich in taste and conveniently packaged in sachets.

Our coffee beans are grown in a unique micro-climate on the slopes of an ancient Panamanian volcano. This enriching atmosphere creates sweet coffee beans, which combined with a rich blend of Chaga, Gotu Kola, Bacopa and organic Ganoderma extracts to create what Sisel believes is the healthiest, best tasting coffee on the planet.*

Why have the highest rated beans if you don't have the best processing? At Sisel, we take pride in our manufacturing process, which is kept entirely in-house. We cookout our beans using special infrared technology. Only 2% of all the coffee beans in the world are prepared with infrared roasters and we're proud to say ours are in that elite group. It results in lower acidity levels and a more evenly flavored coffee, without the burnt or bitter taste some coffee beans produce. All this care guarantees that when you select a **Sisel Kaffé**, you select the best taste and healthier coffee processing.
